## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Kasper on 9/26/03.

The application has been amended as follows:

In claim 7 at lines 11-12, the terms "making the molding surfaces of said upper and said lower dies approach each other to press said glass gob" was deleted and -- pressing said glass gob by said upper and said lower dies- - was inserted.

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that all the claims include a step or a means for suppressing heat radiation from the glass gob so that the inner part and upper part of said glass gob are close in temperature to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
